From 11 to 13 June, the **European Sustainable Energy Week** will return in a hybrid format, in Brussels and online. **SSTAR will be present on-site** in the stand presided over by TIGON – SSTAR's sister project.

Following this year's theme "Net-zero energy solutions for a competitive Europe", the #Energy4NetZero social media campaign aims to highlight and promote **initiatives accelerating decarbonisation** through green technologies and solutions towards a fair and just transition for

people and competitive businesses. Additionally, the campaign seeks to **engage the audience** by inviting them to showcase their commitment to a **net-zero future**.

The campaign starts at the beginning of June on X and LinkedIn.

Join us and show your support with the hashtags **#Energy4NetZero** and **#EUSEW2024!**

The [European Sustainable Energy Week \(EUSEW\)](#) is the biggest event dedicated to renewables and efficient energy use in Europe and is organized by the European Commission's Directorate-General for Energy and the European Climate, Infrastructure and Environment Executive Agency (CINEA).
